OGC API Records: Overview and early implementations

Angelos Tzotsos

OSGeo President

OGC API Records SWG member

OSGeo: Empower everyone with open source geospatial

- Working with the community and our partners:
 - **Open Source:** a collaborative approach to software development.
 - **Open Data:** freely available information to use as you wish
 - **Open Standards:** avoid lock-in with interoperable software
 - **Open Education:** removing the barriers to learning and teaching
 - **Open Science:** share data and software for responsible research
- OSGeo projects heavily involved in the implementation of INSPIRE

- 1990s:
 - Service Oriented Architecture (SOA)
 - WMS (1999)
- 2000s:
 - Web 2.0 (Ajax, JavaScript, Slippy maps, Tiles)
 - OGC WFS (2002), WCS (2003), WPS (2005), CSW (2007)
- Today:
 - REpresentational State Transfer (REST)
 - HTTP verbs, HTTP codes
 - JavaScript Object Notation
 - OpenAPI: Specification on how to describe a REST API

API endpoints (searchable catalogue)

OGC

12 : 45 : 87
FEB - 05 - 3254
167 78 894

ACCESS PATH	DESCRIPTION
/	GET: Landing page
/api	GET: Service or API description document (OpenAPI)
/conformance	GET: conformance statement
/collections	GET: list of catalogue identifiers with hypermedia controls to each catalogue
/collections/{catalogueId}	GET: Metadata about the specific catalogue including hypermedia controls to other resources POST: create a new catalogue
/collections/{catalogueId}/item	GET: query the catalogue (simple) POST: create a new record
/collections/{catalogueId}/items/{recordId}	GET: get the record PUT: update the record DELETE: remove the record
/collections/{catalogueId}/queryables	GET: list of queryables that can be used in a filter

"AG_PRESERVE"

▼ description:

"Agriculture Preserve Lands\nThe California Land Conservation Act, better known as the Williamson Act, has been the state's premier its enactment in 1965. More than 16 million of the state's 30 million acres of farm and ranch land are currently protected under the Legislature passed the Williamson Act in 1965 to preserve agricultural and open space lands by discouraging premature and unnecessary an arrangement whereby private landowners contract with counties and cities to voluntarily restrict their land to agricultural and these agreements is a rolling term 10-year contract (i.e., unless either party files a \"notice of nonrenewal,\" the contract is au year.). In return, restricted parcels are assessed for property tax purposes at a rate consistent with their actual use, rather the preserve defines the boundary of an area within which a city or county will enter into contracts with landowners. The boundary is d supervisors (board) or city council (council) having jurisdiction. Only land located within an agricultural preserve is eligible fo regulated by rules and restrictions designated in the resolution to ensure that the land within the preserve is maintained for agri
